MD SAMIUN MAHMUD

Dhaka, Bangladesh | 01403823240 | samiunmahmud23@gmail.com | linkedin.com/in/samiun-mahmud

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate and Research Assistant with experience in Machine Learning, Deep Learning, AI systems, and CFD-driven applications. Led development of an AI-powered autonomous marketing platform integrating multiple ML workflows. Skilled in applied ML project design, real-world data collection, and problem-solving across healthcare imaging, marketing technology, and socio-economic domains. Focused on model generalization, ethical AI deployment, and measurable real-world impact.

EDUCATION

North South University **2022 – 2026 (Expected)**
B.Sc. in Computer Science and Engineering *Dhaka, Bangladesh*

Dhaka City College **2018 – 2020**
Higher Secondary Certificate *Dhaka, Bangladesh*

EXPERIENCE

Undergraduate Research Assistant **Ongoing**
North South University *Dhaka, Bangladesh*
- Conduct research across Machine Learning, Deep Learning, AI systems, and CFD-related problem domains.
- Design and document research-oriented ML projects following academic methodology, evaluation, and reporting standards.

Lead Developer, MarketMind AI (Autonomous Marketing Agent) **2026**
Team Project — Live Product Demo
- Designed an AI marketing platform consolidating marketing workflows, website audits, and SEO/AEO reporting.
- Developed personalized cold email campaigns, AI copywriting assistant, and blog generation engine at scale.
- Built a social media campaign generator, cross-platform content repurposing, and AI ad image generation pipeline.
- Delivered a unified analytics dashboard and collaborated with cross-functional teams for live deployment.

PROJECTS

- **MarketMind AI:** Full-stack AI marketing platform combining audit, SEO, copywriting, and analytics into one dashboard.
- **Vision–Language Model for Chest X-Ray Report:** Multimodal medical imaging model with cross-institution generalization.
- **ML-Based Eid-ul-Adha Cow Price Prediction:** Applied regression models and ensemble learning to predict livestock pricing.
- **Automated Plant Watering System:** STM32-based embedded system with soil monitoring for autonomous irrigation.
- **Advanced Expense Tracker & Inventory Management:** Systems for financial analytics, stock tracking, and inventory handling.

SKILLS

- **Programming:** C, C++, Java, Python
- **AI/ML & Domains:** Machine Learning, Deep Learning, AI Systems, CFD, Multimodal Modeling, AI Product Development
- **Engineering Tools:** COMSOL, AutoCAD, NI Multisim, Logisim
- **Productivity & Creative:** MS Office, Google Workspace, Adobe Photoshop, DaVinci Resolve, CapCut
- **Languages:** English, Bangla

ORGANIZATIONS & EXTRACURRICULARS

- **Affiliations:** Center for Applied and Computational Science, NSU ACM Student Chapter, NSU Public Health & Sciences Club.
- **Programs & Hackathons:** Banglalink Applink AppQuest Hackathon, GP FutureMakers AI Competition, Ad Maker Bangladesh.
- **Volunteer:** Flood relief operations, winter clothing donation campaigns, and conference logistics support.
